

To whom it may concern:

I want to make my stance supporting the right of Satellite Radio to broadcast weather and traffic. How, with good conscience, can you justify banning the broadcast of general information that is easily accessible from various other outlets. This is simply a ploy by the National Association of Broadcasters to limit their competition, and stymie free commerce. Please see the reality of this situation and vote no to the NAB's petition 04-160.
